THE PLATFORM.

The Democratic party, in National Convention assembled, reposing its trust in the intelligence, patriotism and discriminating justice of the people; standing upon the Constitution as the foundation and limitation of the powers of the Government, and the guarantee of the liberties of the citizen; and recognizing the questions of slavery and secession as having been settled for all time to come by the war or the voluntary action of the Southern states in Constitutional Conventions assembled, and never to be renewed or reagitated; do, with the return of peace, demand,

1. Immediate restoration of all the States to their rights in the Union under the Constitution and civil government of the American people.

2. Amnesty for all past political offenses, and the regulation of the elective franchise in the States by their citizens, and the payment of the public debt of the United States as rapidly as practicable.

3. All money drawn from the people by taxation, except so much as is requisite for the necessities of the Government, economically administered, should be honestly applied to such payment, and where the obligations of the Government do not expressly state upon their face, or the law under which they were issued does not provide that they shall be paid in coin, they ought, in right and justice, be paid in the lawful money of the United States.

4. Equal taxation of every species of property according to its real value, including Government bonds, and other public securities.

5. One currency for the Government and the people, the laborer and the office-holder, the pensioner and the soldier, the producer and the bondholder.

6. Economy in the administration of the Government; the reduction of the standing army and navy; the abolishment of the freedmen's bureau, and all political machinations designed to secure negro supremacy; simplification of the system and the discontinuance of inquisitorial boards for assessing and collecting internal revenue, so that the burden of taxation may be equalized and lessened; the credit of the Government and the currency made sacred; the repeal of all enactments for enrolling the State militia into National forces in time of peace; a tariff for revenue upon foreign imports, and such equal taxation under the internal revenue laws as will afford incidental protection to domestic manufactures, and as will, without impairing the revenue, impose the least burden upon and best promote and encourage the great industrial interests of the country.

7. Reform of abuses in the Administration, the expulsion of corrupt men from offices, the abrogation of useless offices, the restoration of rightful authority to, and the independence of the Executive and Judicial departments of the Government, the subordination of the military to the civil power to the end that the usurpations of Congress and the despotism of the sword may cease.

8. Equal rights and protection for naturalized and native-born citizens at home and abroad; an assertion of American nationality, which shall command the respect of foreign powers, and insure an efficient and unsparing assessment to people struggling for national integrity, constitutional liberty and individual rights, and the maintenance of the right of naturalized citizens against the absolute doctrine of immutable allegiance, and the claims of foreign powers to punish them for alleged crimes committed beyond their jurisdiction.

And demanding these measures and reforms we arraign the Radical party for its disregard of right, and the unparalleled expression and tyranny which have marked its career, since the most solemn and unanimous pledge of both Houses of Congress to prosecute the war exclusively for the maintenance of the Government and the preservation of the Union under the Constitution.

It has repeatedly violated that most sacred pledge under which was raised that noble volunteer army, which carried our flag to victory.

Instead of restoring the Union, it has, so far as in its power, dissolved it, and subjected ten States in time of peace to military despotism and negro supremacy.

It has nullified there the right of trial by jury.

It has abolished the habeas corpus, that most sacred writ of liberty.

It has overthrown the freedom of speech and the press.

It has substituted arbitrary seizures and arrests, and military trials and secret Star Chamber inquisitions, for constitutional tribunals.

It has disregarded in time of peace the right of the people to be free from search and seizures.

It has entered the post and telegraph offices, and even the private rooms of individuals, and seized their private papers and letters, without any specification or notice of affidavit, as required by the organic law.

It has converted the American capitol into a bastile.

It has established a system of spies and official espionage to which no constitutional monarchy of Europe would now dare to resort.

It has abolished the right of appeal in important constitutional questions to the supreme judiciary tribunal, and threatens to curtail or destroy its original jurisdiction, which is irrevocably vested by the Constitution, while the learned Chief Justice has been subjected to the most atrocious calumnies, merely because he would not prostitute his high office to the support of the false and partisan charges preferred against the President.

Its corruption and extravagance have exceeded anything known in history, and by its frauds and monopolies it has nearly doubled the burden of debt created during the war.

It has stripped the President of his constitutional power to appointment, even of his own cabinet.

Under its repeated assaults the pillars of the Government are rocking on their base, and should it succeed in November next and inaugurate its President we will meet as a subject and conquered people amid the ruins of liberty and the scattered fragments of the Constitution, and we do declare and resolve that ever since the people of the United States threw off all subjection to the British Crown, the privilege and trust of sun rage have belonged to the several States, and have been granted, regulated and controlled exclusively by the political power of each State respectively, and any attempt by Congress, on any pretext whatever, to deprive any State of this right, or interfere with its exercise, is a flagrant usurpation of power which can find no warrant in the Constitution, and, if sanctioned by the people, will subvert our form of government, and can only end in a single centralized, consolidated government in which the separate existence of the States will be entirely absorbed, and an unqualified despotism be established in place of a Federal Union of equal States.

That we regard the reconstruction acts of Congress, so-called, as usurpations, unconstitutional, revolutionary and void, and that our soldiers and sailors who carried the flag of our country to victory against a most gallant and determined foe, must ever be gratefully remembered, and all the guarantees given in their favor must be faithfully carried into execution.

That the public lands should be distributed widely among the people, and should be disposed of either under the pre-emption or homestead laws, and sold in reasonable quantities, and to none but actual occupants at the minimum price as established by the Government. When grants of the public lands may be allowed, necessary for the encouragement of important public improvements, the proceeds of the sale of such lands and not the lands themselves should be so applied.

That the President of the United States, Andrew Johnson, in exercising the power of his high office in resisting the aggressions of Congress on the constitutional rights of the States and the people, is entitled to the gratitude of the whole American people, and on behalf of the Democratic party we tender him our thanks for his patriotic efforts in that regard.

Upon this platform the Democratic party appeal to every patriot, including all the conservative element and all who desire to support the Constitution and restore the Union, forgetting all past differences of opinion, to unite with us in the present great struggle for the liberties of the people, and that to all such, to whatever party they may have heretofore belonged, we extend the right hand of fellowship and hail all such co-operating with us as friends and brothers.

NOTICE

IS hereby given, that in pursuance of an order from T. J. Latham, Register in Bankruptcy for the Western District of Tennessee, there will be a second general meeting of the creditors of W. H. Crider, Bankrupt, at said Register's office, No. 50 Main street, at 10 o'clock a.m., on the 4th day of August next.

FOR PRESIDENT,

HORATIO SEYMOUR,

OF NEW YORK.

FOR VICE-PRESIDENT,

FRANK P. BLAIR,

OF MISSOURI.

TENNESSEE.

—The *Banner*, of Friday, has the following items:

The corn and cotton crops never looked more promising along the Nashville and Chattanooga road.

A hooded owl of beautiful plumage was recently shot near Shellmound—an ornithological marvel in that part of the world.

Joshua Rucker was shot and mortally wounded at the Academy of Music last night by a young man named Hat Macey. A real or supposed insult on the part of Rucker is said to have been the cause of the difficulty.

A construction train started through to Hickman yesterday. The weeds are said to have grown seven and eight feet high all along the road. They will have to be cut down. There is every assurance that a regular passenger train will commence running about Tuesday or Wednesday.

Zach Ewing's band (colored), which paraded the streets yesterday in behalf of the Democratic rally in front of the Maxwell House, attracted much attention from the happy combination of colors which characterized their uniform—the "blue and gray."

—The Knoxville *Press and Herald* of Friday says: Messrs. Stokes and Mullins, of the Tennessee delegation in Congress, passed through this city yesterday, en route to their homes.

—One of the effects of the late convention at Bristol, is the impetus given to the grain and produce trade of this section. We notice quite a number of buyers from Lynchburg, Petersburg and Norfolk, and understand that some heavy orders are to be filled for houses in those cities.

FLORIDA.

—Two turtles, one weighing six hundred and the other three hundred pounds, were lately captured near Pensacola.

—In the case of the State of Florida vs. R. H. Pepper, the court decided to admit Mr. Pepper to bail in the sum of $400.

—On the 5th of July, at Crystal river, two negroes entered the store of Marcus Brendt and murdered him without saying a word to him. They were arrested and lodged in jail at Tampa.

—The store of Messrs. Allen Bros., at Key West, was set fire to on the 4th ult., by igniting paper and shavings on the porch. The fire was discovered and extinguished with a couple of pails of water.

—Mr. Dennis W. Kelly, an old citizen of Key West, while engaged in painting the roof of the store of Messrs. Wall & Co., on the 31 ult., fell to the ground a distance of about twenty eight feet, breaking his neck. Mr. Kelly leaves a wife and three children.

—The steamship Narva, which left Key West on the 31 ult., with the duplicate cable for the International Ocean Telegraph Company, failed to make the connection at Havana, having exhausted the cable when about fifteen miles to the eastward of that port, and in the attempt to attach a buoy to the end, lost the cable.

—The Key West *Dispatch* of the 11th ult. says: Reliable information has reached this place that cholera and yellow fever are epidemic in Havana. The schooner Oriental, which conveyed our mail, with the intention of transfering it at Havana, to the next steamer to leave for New York, returned without entering that harbor.

—The *Tallahassean* learns from a passenger that on Monday night the freight train on the A. & G. R. R. from Jacksonville, broke through the trestle work about four miles the other side of Baldwin. The engine was thrown from the track after it had crossed the trestle, and was partially buried in the sand. It was but slightly injured. The track was completely broken up and fourteen cars smashed. Fortunately no persons were injured.

ALABAMA.

—The Huntsville *Independent* says: Dr. E. P. Fitch, who has been in charge of the hospital here for about two years, died at his residence yesterday morning.

—The same paper says: This section was favored with nice showers of rain yesterday. We have a sufficiency of rain now for present purposes. Crops of all kinds, we are glad to learn, are looking remarkably good, and bid fair to yield handsomely.

—From the Jackson County *Herald* we learn of the sudden death of Thomas Snodgrass, on Thursday, the 24th inst. He died with a congestive chill, after an illness of four days. The deceased was aged sixty years, was extensively known and highly esteemed in this county. His loss will be deeply felt and mourned, not only by his own family, but by a large circle of friends and acquaintances.

—The same papers say: We have had rain in abundance for the last several days, and the result will be a sufficiency of corn, and most likely good potato and other fall crops.

—Dennis, the scalawag Probate Judge of some county or other (Coosa we believe) has been bound over in the sum of $1800, to answer for his attempt to assassinate Young, at Montgomery, the other day.

—P. G. Scroggins, a colored fisherman from Mobile, complains in the Selma *Times* that he has been persecuted by the Loyal Leaguers there on account of being a Conservative, for the truth of which he refers to Judge McKinstry, Capts. Frank Johnston and Aunspaugh, and others.

—In Monroe county, on the 23d, Geo. P. Hammons, accompanied by Anthony Bryant, attacked James R. Lowery in his cornfield, and killed him, in consequence of a difficulty about an ox which he had bought of the deceased and had not paid for.

MOBILE ITEMS.

From the Mobile papers of the 30th ult.:

—Caleb Price, Esq., was this morning, at 12 o'clock, sworn into office as the appointed Mayor of Mobile, and has entered upon his duties. Horton was present and looked as sweedy as a beetle.

—Col. Wickersham, late of the United States army, was yesterday appointed Chief of Police, *vice* Col. C. A. R. Dimon, resigned.

A North wind and drizzling rain prevailed yesterday, and the weather, especially during the night, was quite cool and decidedly unseasonable.

—The yacht clubs are having a fine time in the bay.

GEORGIA.

—The Catholics of Savannah purpose building a Chapel in that city at an early day, near the Academy of St. Vincent de Paul.

—It is said that the negro population of Georgia is traveling with great strides towards extinction. No one sees one negro infant to twenty seen ten years ago.

—There were one hundred and ten counties represented in the late Democratic State Convention at Atlanta, the largest turn out ever known to a Convention in the State.

—Life would be a perpetual flea hunt, says a distinguished divine, if a man were required to run down all the insinuations, inuendoes, inveracities and suspicions uttered against him.

The Supreme Court of New York have, in a recent case, decided that a bill of exchange for two thousand dollars in gold can only be discharged by a sum in currency equal to that amount with the premium added.

—In Russia forty thousand men are working on the railroad from Moscow to the Black Sea.

A Sketch of Bombay---Street Scenes.

"Carleton," the lively correspondent of the Boston *Journal*, is writing some interesting letters from India. We quote below from one of them:

Would that the farmers of New England, who, about these days, are driving their teams afield, could see how the Hindoos manage their oxen. Think of a pair of lean, lank kine, with horns eighteen inches long sticking straight up into the air, with a great hump on the back—over the shoulders a straight piece of round wood—a limb of a tree six inches in diameter for a yoke, four pins, each about ten inches long, driven through the yoke to keep it in place on the necks of the animals; ropes instead of bows—not lashed to the horns, but tied around the necks; a cord in the nostril of each ox, with reins attached; a two wheeled cart, with four seats, the driver sitting in front bareheaded, barearmed, barefooted, barelegged, barely dressed in every respect—one bit of rag about the loins; three Hindoo passengers, as bare of clothing as himself, the oxen upon the trot or canter, the dusky Jehu handling the reins adroitly, turning sharp corners, picking his way through the crowd as easily and quickly as the hackmen of your city can thread their course on Washington street.

The peninsula is wider here, and we soon reach the suburbs, where the Europeans and Parsees and rich native merchants live. We find broad avenues, as smooth as the sea beach, shaded by tropical trees in great variety. We pass stately palaces surrounded by spacious gardens. We look up the long graveled walks and behold flowers of every hue—exotics of the temperate zone mingled with the flora of the tropics—oleandas, magnolias, laburnums, acacias, oranges and lemons, honeysuckle, verbenas, roses, azalias, petunias, tiger-lilies—the entire flora of our green-houses blooming in the open air; vines and creepers, clematis and jessamine climbing the walls, overrunning summer houses; trees wholly unlike those which we are accustomed to see—no elms, no maples, or giant oaks, but the tall and slender palm, the palmyra, the cocoanut, with their green plumes gracefully moving in the breezes, the banyan, a forest in itself, sending its new trunks down into the generous earth and spreading its branches far and wide, thickly throwing out its leaves, making a delightful shade; the India rubber tree, the teak, the fig and mango. The Parsee, as far as in him lies, makes his earthly home a Paradise. His palace is large and lofty. He has wide halls, deap verandahs and passage ways running in all directions, so that, let the breeze come from the sea or the mountains, from the north or the south, it may sweep through his halls. The Parsees are the Yankees of the East—the business men who know the knack of making money. In another letter I shall have something more to say about them. They surpass the English in the elegance of their residences. Getting beyond the palaces and villas we come to the plains, reaching northward and eastward, bounded in the dim distance by mountains.

In approaching the city from the sea, or looking down upon it from the hotel, we see few spires, towers and domes of churches, temples or public buildings, but a long reach of tiled roofs, wide streets, open lots, patches of green foliage, with but few objects to attract special attention.

I took an early walk before the sun was up this morning, and saw some queer scenes in the streets. The people were just rising—hundreds of them from the ground in front of their shops—men, women and children, where they had made their beds for the night. Some were still asleep, and I came near disturbing the slumbers of a young man as I turned a corner, by falling headlong over him. It does not take a Hindoo long to dress, especially when his only garment is a strip of cloth around the loins. The children, like those in many American homes, were up bright and early making mud pies. I noticed that they were not dressed quite well enough to make their appearance at Sunday school. In a country where the father and mother make a strip of cloth, of the size of a dish-wiper, serve for full dress, it is not in the nature of things that their offspring should appear in coat, jacket or pants, or crinoline, and trails like those which some young ladies of Boston use for sweeping the streets. The costumes of the maidens of the West—especially the ball room dresses—have longer skirts, and perhaps not quite so low in the neck as the costumes worn by their sisters of India; but in the matter of jewelry the dark-featured ladies of this country can beat them all hollow.

Take a look at this black-haired creature, fondling a little ebony imp, the likeness of herself, in a doorway as we pass, a gold chain about her neck, gold charms of the size of a ten dollar gold piece dangling from it, three silver bracelets on each wrist, an armlet of silver on each arm above the elbow, so many rings on her fingers that you cannot count them, anklets huge and massive upon each ankle, *tolets* of the same metal on her great toes; six gold rings with little bells attached in each ear, a gold brooch with a long pin thrust through the left nostril! Can any fair maiden in America exhibit so much jewelry? See how the fond mother has lavished her fortune, regardless of expense, upon the darling in her arms—rings on its toes on its ankles, a silver chain clasping each of its chubby legs above the knee, a larger chain of elaborate workmanship girding the loins, with charms and little silver bells attached, rings on its fingers, bracelets on its arms, another chain clasping the neck, rings in its ears, a jewel in its nose! Quite a display for a young girl who has not got round to her first birthday anniversary.

The question is solved as to what becomes of the silver. India absorbs it. A love of jewelry is characteristic of men as well as women in India. The men wear bracelets and noserings. The population of the country is nearly one hundred and ninety millions, and it may be set down that each individual has upon an average four or five rings, bracelets or charms, usually of silver. There are at least ten hundred million ornaments among the natives, but no estimate can be made of their value. Through all ages India has swallowed up silver, and the absorption is as great to-day as ever. The coin of the country is wholly silver—rupees or hali dollars. The native does not like a gold currency. Attempts have been made to introduce it, but without success.

—The Northwestern exposition of wools and woolen goods will open in Chicago next Tuesday and continue three days.

BY TELEGRAPH.

Noon Dispatches.

LEAVENWORTH, KANSAS, August 1. Frank Blair made a speech here last night, in which he charged that the Radicals, having lost the confidence of the white people of the country, had resorted to the support of the blacks; that it was from no love for the negro that they enfranchised him, but only a scheme to maintain themselves in power. He said he had nothing to say against Gen. Grant personally; that his military service would ever be remembered with pride, but since he had entered the arena of politics, his acts, politically, were proper matters for public criticism. That Grant had changed his views on the subject of reconstruction, having at the close of the war urged the immediate admission of the Senators and Representatives from the Southern States, and chosen then by the people of those States. But, he said, the secret of the adherence of Gens. Grant and Sheridan, and other regular officers to the Radical party is, that the tendency of that party, which has overthrown the power of the Supreme Court and Executive branch of the Government, is toward military despotism, which, being based on military power, would give consequence to the prominent officers of the army. He says history shows that no party pursuing the course and using the means adopted by the Radicals can live, or receive the support of the people. He denied that the sentiments expressed in his letter of acceptance or in his speech were revolutionary; that the people of the United States at the last elections had repudiated negro suffrage, upon which was based the whole reconstruction scheme, and that to overthrow proper constitutional means the reconstruction acts, is but carrying out the will of the people. He charged that the Radical party only are revolutionary. In reply to a remark from the crowd, he said that the Radical party had made Copperheads respectable. Gen. Blair spoke about thirty minutes, his remarks being received with much enthusiasm. His speech was followed by music and a brilliant display of fireworks.

NASHVILLE, August 1.—In the State Legislature a bill was introduced to appoint an agent to fund the State debt, principal and interest due, and to be due in five years.

A resolution passed the House to investigate the issuance of the fraudulent State bonds in circulation, said to have been signed in New York.

It is estimated that ten million dollars will be necessary to pay for the militia.

WASHINGTON, August 1.—Leading Radicals are fearful that the carpet-baggers won't stick. Several of this gentry, since their admission to Congress, have expressed conservative views, and are prepared to abandon their confederates whenever their political fortunes are on the wane. The result in Georgia is a bitter pill for the Radicals to swallow. They would not permit Hill to enter the Senate, but a few weeks since his political disabilities were removed by Congress. There will be a contest over the admission of Miller.

The deficit in the Postoffice Department, for the fiscal year ending June 30, is nearly eight million dollars, caused principally by opening the Southern mail service and ocean mail.

The White House is besieged every day with office seekers, but this being Cabinet day only a few persons were admitted to an interview with the President.

The warrant for the payment for Alaska will be given to the Russian Minister to-morrow. It will be paid in New York.

Compressed Air for Propelling Street Cars.

New Orleans seems to be taking the lead in devising new methods for propelling street cars. Mr. Waylies, of that city, has recently invented a car which has proved a complete success. In the car station there is to be an ordinary steam engine of about sixty six horse power, for compressing air into reservoirs. The reservoirs are made of a paper composition, and two of them are placed on top of the cars. On each car there is to be a small engine operated by air supplied from the reservoirs in the same manner as steam, giving the exact amount of power that was required to compress the air. The engine is not difficult to run, and the cars can be stopped much more readily than where horses are used. Each car will have 300 pounds of compressed air to start with, which will be sufficient to run it nine or ten miles. The exhausted air, as it escapes from the engine, may be used for ventilation.

The New Orleans *Picayune* says: "When this system is adopted in our city, it will cause at least 5000 mules to be sent into the country, thereby being of much benefit to the farmers."

In New York there are some 40,000 animals employed on the various railway lines. The release of this immense number of horses would do much towards reducing their value. The cost of running cars by this method would be much less than at present and the speed more uniform. It is claimed that cars can be stopped quicker with the compressed air than by horses.

Democratic Clubs established elsewhere in the State are invited to correspond with the Shelby County Club, for co-operation and concerted action.

TO THE CITIZENS OF SHELBY COUNTY.

Arrangements have been made by the Central Democratic Club of Shelby county to hold a Democratic County Convention on Wednesday, the 5th inst., at 12 o'clock m., at the New Memphis Theater, for the purpose of selecting delegates to the Democratic Convention which is to meet at Brownsville, Tenn., on the ensuing Monday. All the citizens of the county whose hearts are in the cause are invited to be present and take part in the deliberations. Citizens from the country are especially urged to attend. For their especial accommodation the hour of meeting was set at midday, and it is to be hoped that all will feel the necessity of giving the aid of their personal attendance. The meeting will be continued at the same place at night, and some of the most distinguished orators of Tennessee will be present to address the people.

Upon the results of this convention of the county, depends in a great measure the selection of a candidate for Congress, and an elector who shall properly press before the people the claims of the Democratic party, as well as give body and form to an organization that is now but in name. Results so important to us in the present campaign, should have in the fullest sense possible the indorsement of the WHOLE PEOPLE of the county, especially those resident outside of the city, who have not had opportunities to counsel with us in our preliminary meetings—In order that no reasonable occasion may remain for objection to the work of the convention. It is for this reason, and to meet an emergency greater than has ever before come upon the country, that we urge every citizen to be present on that day.

LAW AND LOGIC.

The New York *Tribune* of some day in June has the following:

That plank of the New York platform which demands that the debts of the nation should be paid according to their letter and spirit, is no Quixotic excess of honor. Many of the bonds were issued when no other currency than gold existed. All the Five-Twenties were issued or authorized before it was dreamed that this clamor for paying them in depreciated currency would obtain to dangerous proportions. It was not stipulated in any acts authorizing these loans, prior to the Ten-Forties, that they should be payable in gold. First, because no other medium of payment was thought of; and secondly, because no other medium of payment would have complied with their terms. They call for the payment of "dollars," and a "dollar" is plainly defined by the statutes of the United States as a coin of certain weight and fineness. No act of the United States has ever made a greenback a dollar, or anything more than a note promising to pay a dollar. It is declared "lawful money," and a "legal tender in payment of debts;" but none of the Five-Twenties are payable in "lawful money," or "legal-tender." They are all expressly payable in "dollars;" and hence the Democratic platform, in declaring that bonds payable in "dollars" shall not be paid in "dollars," but in depreciated paper notes, or promises, whether of the United States, or Patagonia, or John Smith, is repudiation both of the spirit and the letter. Our platform is pervaded by a tone of earnestness and sincerity in the language in which it vindicates the national faith, which shows that it means what it says.

The courts, even in New York, have held that notes expressly made payable in gold, or coin, may be paid, nevertheless, in greenbacks, under the law making these a legal tender. Of course that is a judicial justification of rascality, as legalized by law. The law of Congress is thus the patron of the swindler and assists the dishonest debtor to cheat his creditor, relieving him from the obligation of keeping his promise by paying his note in coin. But so it has been decided, nevertheless.

Nobody doubts that a note of an individual, made before the legal tender act passed, and promising simply the payment of so many dollars, can be paid in greenbacks. We do not believe that Congress has any power so to violate the obligation of a contract. The Constitution did not mean to say "no State shall pass any law violating the obligation of a contract, *but Congress may do it.*" Congress can exercise no powers not granted by the Constitution. It was not necessary to *forbid* the exercise of such a power. It was only necessary not to grant it, and to brand it as immoral by refusing it to the States.

It is perfectly certain that if it *can* so violate the obligation of individual contracts, it can equally violate that of its own. The contracts of the nation are no more sacred and inviolable than those of the individual. If the failure to prohibit the exercise of such a power, *gives* the power, it gives it as to *all* contracts; and greenbacks are a legal tender in payment of debts generally, without exception of National debts.

To authorize a man to pay in depreciated paper a note for so many dollars simply, may be repudiation, to the extent of the difference; but the Courts hold, nevertheless, that this can be done; and it is no worse in a government to be dishonest itself, and violate its own contracts, than to legitimate and legalize, and offer inducements of profit for, dishonesty in individuals. Of course the Government has no moral right to force its creditors to receive its depreciated notes in payment of debts which when contracted were by law payable in gold and silver. Has it a moral right to enable an individual to do that, while he can demand gold of the Government, and with it buy at a discount notes of the Government, to pay his creditor withal, who has just the same moral right to require gold for his debt as his debtor has to require it of the Government?

In *Rodes* vs. *Bronson*, 34 *New York Rep.* 649, it was decided that a Mortgage made in 1851 to secure a debt of $1400 payable in 1857, "in gold and silver coin, lawful money of the United States," could be paid in legal tender notes at par; and in *Wood* vs. *Bullens*, 6 *Allen* 516, the Supreme Court of Massachusetts held the same in regard to a note for $500, payable "in specie."

The Courts have held that a contract for *Dollars*, is a contract for the payment of a certain sum of money: that when the legal tender act passed, paper dollars became the equivalents of dollars in coin; and that a tender of the requisite number of *dollars* became good in whatever lawful currency made.

The *Tribune* will hardly convince the people that holders of bonds of the Government, payable in dollars, are out of the reach of this logic of the Courts, cannot be compelled to receive their dollars in paper and *can* demand them in gold. If the creditor of an individual has no right to have his dollars in gold, so neither has the creditor of the Government. The reasoning of the Courts, artificial and unsound as it is, applies equally to both; and the people will be very sure so to apply it.

NEWS.

—The bear in Dan Rice's circus at Danbury, Conn., a few days since, broke down the partition in his cage and nearly killed the kangaroo before he was mastered.

—The European and North American railroad company have been obliged to send to Canada for laborers. Three hundred and seventy-five will arrive in a few days.

—The people of Belfast, Maine, held a meeting last week and made all necessary arrangements for a grand public celebration on the 4th of August, when ground will be broken for their railroad.

—The bark Pacific has arrived at New Bedford from an eight and a half months' cruise, with 590 barrels of sperm, and thirty-five of whale oil, and had also secured 6300 pounds of copper and 700 of lead from a vessel burned by a Confederate privateer on the Rocas shoals.

—In Michigan recently thirty-five men went into a harvest field to cut grain. About ten a.m. no less than sixteen of them had been sun-stricken, the majority of whom died under the exposure. Such an instance of wholesale casualty has hardly a parallel in the history of this country.

—A number of farmers in the vicinity of Minneapolis, Minn., are seriously thinking of clubbing together and sending to Texas for a large number of cattle, proposing to winter them, and fat them next season for the Minneapolis market.

—The City Council of Kansas City has passed an ordinance requiring all physicians and midwives to register all births and deaths occurring within their practice in that city, with the City Physician, on a penalty of from $5 to $25 for each delinquency.

—A street beggar in Portland, Me., recently asked alms for the purpose of getting something to eat, saying he had fasted over twenty-four hours, and was in a starving condition. A benevolent individual took him to an eating house and invited him to eat. The "starving" man astonished his benefactor by calling for a plate of sardines and a glass of wine.

—Advices from Fort Reno say that on the 19th, while nine soldiers were hunting stray cattle, they came upon four hostile Indians and a skirmish ensued. The Indians retreated a short distance and were reinforced. Major Clark, with thirty cavalry, came up with a howitzer and fired on the Indians, who responded and fell back, when, being again reinforced, they made a stand and drove the soldiers back, killing one and wounding another.

—John M. Palmer, so-called General, Republican candidate for the Governorship of Illinois, says, in a stump speech, of Grant:

"There is not a man nor a woman, or a child above the age of infancy in the Republic, who has not heard the name of Ulysses S. Grant. [Applause] The Union men know it and love it."

There are few men, whom or children in the Republic who have not heard of Butler, Beelzebub, Judas Iscariot or Thompson's colt. The "*Union men*" know them, love them, and imitate them.

Grant's Prospects.

We translate from a German Radical paper, called the *Future*, published at Indianapolis, the following reasons why it will not support the great Dummy for President. There are four reasons given, but the two we quote are the most remarkable evidences of disaffection toward the Radical cause in quarters where it has hitherto been strongest:

We will not vote for Grant, because the Chicago platform is not a forward but a retrograde step. We will here only call attention to that plank which declares that negro suffrage must be carried out in the South, but not in the North. *By this scurrilous pusillanism it is sought to inveigle Conservative votes; but this delusion will soon be dispelled. Whoever is opposed to negro suffrage in the North will wish to see the South exempt from the same blessing.*

We will not vote for Grant, because, by the result of the recent impeachment trial the powers of the President have been enlarged; that *to place them in the hands of an ambitious soldier, in case of a revolution or foreign war, may prove the destruction of the Republic. Silent, ambitious Grant is best adapted to carry out treasonable designs, much more so than a Democratic President from the civil ranks.* Democrats cannot make matters worse than they are now. Let them exert themselves to the end; it will bring the public sooner to its sober sense.

ALABAMA.

—The Selma *Times and Messenger* says: Rain, rain, rain! Rain first thing in the morning; rain all day; rain the last thing at night. The erewhile dusty streets are impassably sloppy. Umbrellas, not double hats, are needed. Planters complain of floods, not drought. We are having too much of a good thing. Ex-Gov. A. B. Moore passed through the city yesterday, en route to Montevallo, where he will to-day address the great ratification meeting of three counties.

—Mobile is in a bad fix; witness the following from Saturday's *Tribune:*

NO GOVERNMENT.—The city of Mobile is now without: Boards of Aldermen and Common Council, Treasurer and Tax Collector and Sheriff. Some of the military appointees hold on, but the places have been declared vacant. Won't some patriotic gentlemen put in applications for the last three mentioned places.

—The Supreme Court of the Sandwich Islands have just decided that an unsuccessful attempt to commit suicide is not indictable. At common law suicide was a felony, and the attempt to commit suicide indictable.

WASHINGTON.

WASHINGTON, August 2.—Gen. Stedman left to-day for New Orleans, to resume his duties as Collector of Internal Revenue.

Statements recently published respecting the financial affairs of the Post Office Department, are unreliable. The official exhibit will not be completed till September or October, and the greater part of whatever deficits may be found, will be owing to the establishment of expensive mail routes in new Western Territories.

Senator Harris, of Louisiana, who is still here, has many letters from Louisiana and Mississippi, but none of them allude to any organized opposition to existing affairs in other States.

CANADA.

MONTREAL, Aug. 2.—Dispatch from Halifax says Mr. Howe has published a letter rebuking violent articles recently published in Anti-Union newspapers of Nova Scotia. He advises the people to give the Canadian Ministers now on their way to Nova Scotia, a courteous reception, and the remedial measures proposed, a fair hearing. It is reported that Dr. Tupper will retire from the Ministry, and that Mr. Howe will have a seat in the Cabinet.

OTTAWA, C. W., August 2.—The different Insurance companies have deposited about a million dollars in cash, a million in Canadian and British securities, and three-quarters of a million of United States securities in the treasury. Discount on American invoices for the week 30 per cent.

The minister of customs has published coasting regulations in lieu of former regulations of the provinces of Canada.

SOUTH CAROLINA.

COLUMBIA, August 2.—An affray occurred last night at midnight between a party of ten or twelve negro members of the Legislature and five whites, which resulted in the mortal wounding of one of the latter by a pistol shot through the head. The whites entered a boarding house in a disreputable portion of town, by mistake, supposing it to be a brothel, and were struck by one of the negroes. Upon the stick being wrenched from his hands, the whole party ran in front of the house and commenced firing. Twenty or thirty shots were fired, and the whites retreated, except the wounded man, who was too drunk and remained on the sidewalk and was shot down. The author of the crime is unknown. No arrests were made. Much excitement prevails among the citizens. The whites are said to have been unarmed. No weapons were found on the body of the wounded man.

CHARLESTON, August 2.—The parties charged with the murder of Mr. Dillon, of Fairfield District, who were recently turned over to the civil authorities by the military, have had a hearing on the writ of habeas corpus, and been released on bail.

NEW YORK.

NEW YORK, August 2.—News from Porto Cabello reports the adherents of the deposed President to number 1500, supported by a flotilla of five small vessels concentrated there.

The new President, Moragas, has marched on Porto Cabello, determined to crush all opposition to his administration.

The Council of the Austrian Ministry has definitely settled the title of the Austrian Empire as the Astro Hungarian Monarchy.

The Holy See is disposed to recommend to Austrian bishops an attitude of conciliation, in particular that they should avoid all steps which could be considered as interference in political affairs.

A general agricultural report of the condition of the harvest on the continent says that the harvest in the South of France is terminated, and that the fears which had generally prevailed have been dissipated, and the result proved better than was expected.

The crops, which in certain localities of the Van was supposed to be in jeopardy, will be abundant. At Angiers reaping is going on everywhere, and the farmers seem to be well satisfied. The yield will be large, although the quality leaves something to be desired. At Monthiers the sickles are also in the corn, and the crop will be good.

Letters from Normandy give great hopes, and in some points produce will be above average.

A statue in Market Place and a memorial window in Abbey church at Romsey, were inaugurated on the 21st.

A serious riot recently at Trieste was suppressed by the military. One man killed and another wounded.

General Prim has recently disappeared from London and probably gone to Lisbon, where all the military men of the progressive party, who recently had to leave Spain, are proceeding. The friends of the Spanish Government were becoming alarmed, and a state of siege will probably be proclaimed shortly. Belief was prevalent that the present Portugese Minister is in favor of revolution in Spain.

General Grant's Brother—Republicans in Chicago Going for Seymour and Blair.

One member of the Grant family was not trotted out at the Radical Chicago Convention. This was Orville Grant, Esq., brother of the General, and a prominent and respected merchant in Chicago. Although so near at hand as to render his presence easily obtainable, he was neglected, and not allowed to render his tribute to his great brother's many merits. The state of the case, as we understand it, is that Orville Grant refuses to vote for his brother, considering him unfit, by his character and habits, to occupy the Presidential chair; that he lately presented a Chicago church, of which he is a member, the sum of $500, and to the Chicago Democratic Club the sum of $1000. A clergyman who suggested to him that it would have been better to reverse these gifts, was informed by Mr. Grant, in reply, that upon a careful consideration of the state of the country and the character of the two candidates, he rather thought he ought to have doubled the present to the Democratic club! It is also said that Mr. Gage, the proprietor of the Sherman House at Chicago, who would have voted the Republican ticket had another candidate been nominated, is now for Seymour, and willing that the Democratic clubs of Chicago, should make his celebrated hotel their headquarters. Another indication of the way the tide is setting in that city was the presence of five or six hundred Republicans at the Seymour ratification meeting in Chicago, who cheered as lustily as many of the Democrats.—*National Intelligencer*, 30th *ultimo.*

LYNCH LAW IN MAINE.

The Bangor *Whig* says a place called Hogtown, about four miles from the city, for a long time has borne an unenviable reputation for disorder and lawlessness, and of late has been the scene of crimes of more than ordinary magnitude. On Thursday last a river driver, named Cunningham, who had been recently paid off, was gotten into the house of a Mrs. Davis, plied with liquor until intoxicated, and then beset by a man or men with intent to rob him. Not being drunk enough to accomplish their purpose, they beat and stabbed him until they left him for dead in the road. He recovered sufficiently to crawl to a neighboring house, and Dr. Fisher, of Orono, dressed his wounds, and he was removed to Upper Stillwater, where it is reported that he died Sunday.

On Saturday evening the citizens of Orono, indignant at the disgrace which their town has suffered from this den of corruption in their midst, and which had culminated in this last affair, held a meeting at which it was resolved to wipe out the concern by fire, and two hundred persons signed a paper agreeing to hold themselves responsible in any suit for damages which might grow out of it. Believing if "'twere done at all 'twere well 'twere done quickly," a crowd of men numbering one hundred and fifty-two, with a chosen leader, started on the same evening to carry their resolution into effect. Arriving there about twelve o'clock, they visited the house of Mrs. Davis, and calling her up, gave her five minutes in which to remove her goods, if she had any she wished to save, at the expiration of which time they set fire to the house, leaving not a stick of it unconsumed. Only a black spot of ground shows where it stood. Then they went to another house and notified the proprietor that he could have until Tuesday next in which to clear out his establishment, failing in which they would do it for him as they had already done for his neighbor. The reputed murderer of Cunningham has, it is said, gone over the lines into the dominion of Canada.

CONVENTION OF HEBREW COVENANTERS.

LAST DAY.

The Convention of the Order of B'ni B'rith held its closing sessions yesterday. The proceedings show a healthy condition. The Order numbers 12,599 members, exclusive of the States of New York and California; owns property to the amount of $421,239, and paid in charities during the past year $23,684.

Its new constitution declares fraternal relations toward all mankind. Though established by Hebrews, primarily for Hebrews, the doors of B'ni B'rith have been opened wide to all.

One of the members declared that he belonged to a Young Men's Christian Association, and was proud of the fact.

Be it enacted, etc., That for the sole purpose of redeeming and retiring the remainder of the compound interest notes outstanding, the Secretary of the Treasury is hereby authorized and instructed to issue an additional amount of temporary loan certificates, not exceeding $25,000,000, said certificates to bear interest at the rate of three per centum per annum, principal and interest payable in lawful money, on demand, and to be similar in all respects to the certificates authorized by the act entitled "An act to provide ways and means for the payment of compound interest notes," approved March 2, 1867; and the said certificates may constitute and be held by any National bank holding or owning the same as a part of the reserve, in accordance with the provisions of the above mentioned act of March 2, 1867.

Iron Mountain in Virginia.

The Pittsburg *Gazette* says: We are informed by Hon. D. D. T. Farrenswerth, State Senator from Upshur county, West Virginia, that an iron mountain exists in the upper portion of that county, of greater extent and purity than any other known body of iron in the world, not excepting the famous iron mountain of Missouri; and that under this vast body of iron there is a vein of bituminous coal, measuring on the face, where the Buchanan river cuts through, twenty-five feet in thickness. He declares this ore so pure that a blacksmith took a piece and forged a horse shoe from it.

This deposit is up the west branch of the Monongahela river, and can be reached from this city by a railway not exceeding one hundred and fifty miles in length. The Monongahela Valley Railroad, provided for by act of the last Legislature of Pennsylvania, is in the direct range. This line is estimated at ninety miles to Morgantown. A bill was passed at the same time by the West Virginia Legislature, to extend this projected line on to this mineral district, a further distance of sixty miles.

Pratt's Southern Made Cotton Gin

THIS GIN is regarded by planters who have used it, as the best for sample, picking the seed clean and light draught. Planters cultivating bottom lands are requested to examine the Eureka Gin at Farrington & Howell's, 268 Front street. It will pay for itself in ginning fifty bales. A. N. Gunnison, manufacturer of the Steel Comb Gin before the war but now a planter, gives the following certificate:

"MEMPHIS, TENN., January 31, 1868.

"I take pleasure in recommending to planters cultivating Cotton on bottom lands of the Mississippi, Arkansas, White and St. Francis rivers, the Eureka Gin, made by Daniel Pratt, of Alabama. This Gin separates the hulls, bolls, etc., from the Seed Cotton, makes a good sample, and is superior to any other Gin for bottom lands. I have used one myself on a farm in Washington county, Miss., and it operates well and gives entire satisfaction in every respect.

A. N. GUNNISON."

Orders for Gins, from 40 to 80 Saws and Gum Belting, at Factory Prices, addressed to the care of FARRINGTON & HOWELL, 268 Front street, Memphis, promptly filled. Presses and Gearing put up, and Gins repaired by a skillful Gin wright. G. W. TRUEHEART,

CITY MATTERS.

CHURCHES were but slimly attended yesterday, as a general thing, the weather being too gloomy to venture out.

A PELICAN and several sea gulls were seen on the river yesterday. These birds rarely come so far inland, unless driven by storms.

THANKS to Felix Cross, Esq., for the latest newspapers from the East and South. Mr. Cross is continually putting us under such obligations.

THERE will be a grand rally of the Democracy to-night at Stillman hall. Distinguished speakers will be on hand to address the crowd.

DR. MCGUFFEY will lecture this evening at the Baptist Tabernacle, on Court street, and not at the Cumberland Presbyterian Church, as announced. The subject is Education. Seats free.

ASSAULT.—Addison Pollier assaulted Henry Green yesterday, and knocked the "hind sights" off him. Henry traveled for the Second District Station and had Addison locked up. No bones broke.

THE WEATHER.—It commenced raining on Saturday night about midnight and continued to pour down without intermission until ten o'clock yesterday morning. It then held up, and though the skies remained overcast all day, did not rain any more. At present writing, eight o'clock, the skies have every appearance of a rainy night.

THE STEAMBOATMEN'S SEYMOUR AND BLAIR CLUB holds its first regular meeting this, Monday evening, at the Hall, corner of Second and Adams, at eight and a half o'clock. A full and punctual attendance is requested. Several distinguished speakers will be present and address the Club.

By order of the President.

GODFREY WILKERSON called on us yesterday to say that the story of the "Democratic Negro," so-called, who accused him of playing into the Radical hands, is a base, willful, malicious fabrication, invented by some "pseudo Democrat, whose cuticle he (Godfrey,) will excoriate with his unguicules, if he can only discover him." We have an "anthropomorphic adumbration," as Miss Evans would say, "that there will be a gigantic iconoclasm" if Godfrey catches John Paine, the darky who accused him.

POLICE ITEMS.

—There six arrests in the First District up to midnight. Drunk and disorderly, carrying concealed weapons and street walking were the charges.

—In the Second District only three arrests were made up to 8 o'clock p. m. Keeping open on Sunday and two drunks.

—The houseboy of Dr. Williams, a negro, was arrested yesterday afternoon, and locked up, for complicity in the brickbat excitement.

FCALAWAG.—An exchange says: "A correspondent wants to know the meaning of this term: It is a vulgarism, and American in origin. It is without root or branch in the English, Latin, Greek or Hebrew tongues. It is United States in extract—Radical in rendering—a low, worthless fellow; a scape-grace. It is particularly expressive in these degenerate days, when the scum of society is drifting to the top." The word, we believe, is a corruption of the French word *scelerat*, rascal, and when we first knew it meant nothing very opprobrious, being used to signify a lazy, harmless, good-for-nought. By usage and custom it has grown to be one of the most vilely opprobrious epithets in the language.

COMMERCIAL COLLEGE.—We called the attention of our readers yesterday to the card of Robertson's Commercial College, on the corner of Main and Winchester streets. Mr. Robertson has been, as we stated, engaged with Mr. Leddin, at his Commercial College, for the past three years, and is a finished book-keeper, a beautiful penman, and a good accountant. He possesses in an eminent degree, as many book-keepers in our first class houses can testify, the rare faculty of imparting his own knowledge to others, and is a teacher in the true sense of the word. His scholars inform us that he is patient and painstaking, two rare but essential characteristics of a good teacher. His institution will open on the 1st of September, and we cordially recommend him to our friends as a teacher who thoroughly understands his business.

GRAND RALLY—INDEPENDENT SEYMOUR CLUB.—In pursuance of a resolution adopted at the last meeting, the next regular meeting of the Young Men's Independent Seymour Club will be held in Stillman Hall, on Monday evening, August 3d. The band of the club will be in attendance, and speeches will be delivered during the evening by H. M. Loewenstine, Esq., Col. Gantt, Capt. Harvey Mathes and John Donovan, Esq. It is expected that, in response to invitation, the Central Democratic and Young Men's Independent Democratic Clubs will be present in full force. Badges will be distributed to the members of the Seymour Club, and their elegant new banner, the first of the campaign, will have been completed, and be presented by the committee. A grand torch-light procession will take place upon the adjournment of the meeting. As business of importance is to be brought before the Seymour Club before the speakers of the evening are introduced, it is urgently requested that every member will be on hand at a quarter before eight o'clock. A special invitation to be present is extended to the ladies of Memphis. By order of the President.

THE HAUNTED HOUSE.

As yet not the slightest clue has been obtained towards unraveling the strange and mysterious affair at Dr. Williams' house. Indeed, the mystery deepens, and what we at first supposed was the malicious jest of some foolish practical joker, which would soon be detected and punished, has become a matter of grave and serious import,—the subject of universal curiosity and interest, and a problem taxing in vain the utmost ingenuity of our police. The "brickbatting," as our readers were made aware yesterday morning, continued up to a late hour Saturday night, and, we are informed, even during the terrible rain storm which raged unabatedly from midnight till nine o'clock yesterday morning. There were lulls of an hour or two when no bricks or stones were thrown, but these were only temporary, and after them the bricks would again fly thicker and faster than ever, at the fated house. Yesterday morning, as soon as the rain ceased, crowds of citizens commenced to visit the scene, and hundreds gathered in the streets and yards around, all on the *qui vive;* but though they watched "with all their eyes," the pellets came as before, and none could say whence. Experts, detectives and police examined the house and adjacent premises, and many surmises and conclusions were offered, discussed and abandoned.

In the afternoon Colonel Beaumont ordered the police to clear the streets, grounds and premises adjoining of all visitors and strangers, and adopted a plan which we think, if it does succeed in catching the party or parties engaged in this outrageous persecution of Dr. Williams, will cause the persecution to cease. There are facts connected with the affair which we are in possession of which we are requested not to make public at present, but we hope before again going to press to be able to announce the mystery explained. Meanwhile, Dr. Williams and his amiable family have our sincere sympathies in their persecution.

P. S. Since writing the above we learn that the negro who waits upon Dr. Williams—a sort of dining-room servant, was arrested and locked up yesterday afternoon, on suspicion, and since he has been incarcerated not a brick has been thrown. We think he can account for the milk in the cocoanut if he wishes to.

FALLING OF A BUILDING.

Effects of the Rain Storm.

Yesterday morning about 9 o'clock the new brick buildings which were in process of erection on Union street, between Main and Front, tumbled down with a loud crash, which startled the denizens of the regions round about considerably. The buildings were being erected by Messrs. Meacham & Treadwell and Galbreath, Stewart & Co., on the site of the old stores which were torn down a few weeks ago. In excavating for the cellar and foundations the workmen dug too deep, going below the foundation of a wall which was left standing, on the west side, next to Anderson & Gay's. The heavy rains of Saturday night washed the earth out from under it, and it fell inward, striking the framing of the new buildings and overwhelming them in one common ruin. Fortunately, the buildings were not far enough advanced to be occupied, and so no one was hurt. One or two of the iron columns in front were broken, but beyond that the material was not injured, and the only loss will be the labor which has been expended and the time lost.

FACTS TO REFLECT UPON.

Not one man in one hundred succeeds during his lifetime in amassing enough to support in comfort those who are dependent upon him, for one single year after he shall have been called away from them, and yet there is no man in whose heart the wish is not uppermost to provide for those nearest and dearest to him, after death has claimed him and he can no longer work for them. How strange it is, then, with opportunities on every side of them to make this provision, there are so many men that die and leave their families destitute! Each thinks that every one else must die but himself, and never reflects for a moment that "in the midst of life we are in death," and that the frail fretted thread of his own existence may be severed in an instant. What is then obviously the duty of every man? To *insure*, and that for the largest amount that he can carry, and in the *safest* and *best* institution that is within his reach. "Which is the safest and best," we are asked. The *beau ideal* of a perfect insurance corporation is that which combines perfect safety and progressiveness—the staunchness and stability of the old school, with youthful vigor and enterprise. These qualities constitute, in their possessor, the medium that may be called golden, and by no company are they possessed to a more remarkable degree than by THE ST. LOUIS MUTUAL, represented in our city by Messrs. McMahon & Otis, No. 43, Madison street. It seems to be the institution so long wanted by the public, and to be all that could be wished by the most careful or the most progressive man. Its rapid growth in public favor is a convincing proof that it is appreciated in this light.

ALL CITIZENS who realize the incalculable importance of connecting directly by rail with the rich and fertile country between this city and Holly Springs, Columbus, Aberdeen and Selma, are earnestly invited to meet the subscribers at Odd Fellows' Hall, on Monday evening next at 8 o'clock. Let Memphians awake before it is too late. The meeting will not be called upon for subscriptions. Addresses will be made by Messrs. W. J. Sykes, Hon. Mr. Clapp, Hon. Judge H. Smith, and others.

TEXAS CATTLE.

Their Introduction into Tennessee and Virginia Markets.

The question of the supply of good and wholesome food, especially fresh meats, is always one of interest to every populous and growing community. In our present comparatively youthful and uncrowded condition, we have but little present need of much forethought on the subject, but in the older portions of our country, it has already become one of paramount importance, and philosophers, financiers and statesmen have discussed it in all its bearings. There has been lately started in our midst an enterprise connected with this question, which we believe is destined to play a great part in the development and growth of our city, as it will bring to us an entirely new branch of trade, and make Memphis play a great role in the feeding of the great cities of the East and North, and make it, in fact, a vast central market for the cattle trade of Texas.

In times *ante bellum* the markets of Baltimore, New York and other Eastern cities were very largely supplied from the magnificent grezing and stock raising regions of East Tennessee and the famed Shenandoah Valley of Virginia. The war came, and that splendid country was stripped of cattle, as of other branches of its material wealth, and is now almost entirely depleted of stock of all kinds. The financial condition of the people has not enabled them to do as much as might be desired to recuperate their exhausted resources. Industry and determined energy, however, directed to the cultivation of the soil—the source of all wealth—and the prospect of abundant crops, have this year rendered their condition better than it has been at any time since the war. They need work animals, and the surplus of corn they have produced this year cannot be more profitably used than by being fed the coming winter to stock, commanding at all times in the Eastern markets good prices.

Texas, as every one knows, besides being a great grain-growing State, is possessed of immense herds of cattle, which roam over her boundless prairies, increasing with almost incredible rapidity. For these cattle there is no sale in the interior. Annually, commencing about the first of April, the stock-raisers drive the cattle, of four years old and upwards, either through Arkansas and Kansas to the Missouri river, or to points on the Gulf of Mexico and the Mississippi and Red rivers. It is estimated that 150,000 cattle have been driven to Kansas and other parts of the Northwest, and there sold, since the first of January last, and that during the same period about 21,000 head have found market at Hog Point (near the mouth of Red river) and New Orleans. The latter have been bought by the dealers in Illinois, Indiana and Ohio—Illinois being the main purchaser. These cattle are pastured and fattened on her broad prairies, and for the most part are shipped to the markets of Baltimore, New York and other Eastern cities, though not a few are sold for consumption in Chicago. The West and Northwest cannot, as has been amply demonstrated this year, supply an adequate market, and there are consequently at this time great numbers of cattle at New Orleans and other points, for which no sale can be had. The stock raisers of Texas and the cattle-brokers of New Orleans are therefore anxious to open up other markets for the rapidly increasing supply of cattle; and it is precisely this that may be made to inure to the benefit of the people living in the fine grazing regions of North Alabama, East Tennessee and Virginia. Let us look for a moment at the stocks and production of these cattle, and their cost delivered in East Tennessee or Virginia.

From the best information to be obtained, the number of cattle in Texas is estimated at 5,000,000 head, and the annual increase at 1,000,000 calves. Stock raisers estimate the loss on the increase to be about 25 per cent. by death from disease and casualties, leaving a nett production of 750,000 yearly. About 250,000 cattle are annually exported from Texas. These estimates are considered low by those best informed. After being driven from the interior of Texas, a journey of from twenty to twenty-five days, they are of course in poor condition. At present they are worth in New Orleans from $10 to $20 per head, according to size. Cattle of the largest size, costing in New Orleans say twenty dollars, and capable of being fed so as to weigh 1300 pounds gross, (the beef they afford being of the finest and tenderest quality, and they being besides very serviceable as yoke animals,) can be shipped by boat to Memphis, thence by the Memphis and Charleston Railway and connections to Bristol or Salem, on the Virginia and Tennessee Railroad, costing there about thirty dollars a head. It is needless for us to say anything to our readers of the grazing lands of East Tennessee and the famed Shenandoah Valley of Virginia, accessible from Bristol or Salem by a good turnpike road, or of the facilities that country possesses of rapid and easy transit to the Virginia and Eastern markets, where these cattle will always command a profitable sale. From the point of debarkation from the cars, the cattle can be leisurely driven up the valley, each day improving their condition and finding them nearer a good market. It is very confidently believed that time and the investment of a little capital are alone needed to develope a larger and more profitable trade along the direct and continuous line of railroad from Memphis to New York than is now done by the Northwest with its longer, more circuitous and costly communication with Eastern cities.

Our firm conviction is, that if this project be carried out, Memphis will soon become the very center of the Texas cattle trade, for the Northern, Eastern and the Atlantic seaboard Southern cities. Our friend, Charles S. Sawyer, Esq., of the Memphis and Charleston road, is now engaged in perfecting the arrangements for a trial of the experiment, and it is to be hoped that he may find a zealous co-operation from all parties in this highly important enterprise. We would respectfully request our Texas cotemporaries and exchanges to bring this matter before their readers in a proper light, for by so doing they will materially aid and assist us by making our efforts known to the stock-raisers themselves.

FOR TEN DAYS ONLY.—W. Y. Clrode assignee of P. I. Huette & Co., bankrupts, will sell the balance of the stock at No. 195 Main street, at twenty per cent. below New York and manufacturers' cost, in lots to suit purchasers. Fancy goods, drugs, paints, oils, perfumery, etc. jy23 eod 10t

THE COUNTY JAIL.

The Grand Jury, in their report, state that this institution is supported by the county at the cost of some twenty odd thousand dollars for fees and salaries Their economical recommendations, if carried out, would reduce these figures largely, leaving still fifteen thousand dollars yearly, at least, to be raised from the already overburdened and overtaxed people. A proposition was made to us yesterday, to obviate this, and make the jail not merely a self-supporting, but a paying institution, and we were authorized to make the offer public. An old citizen, who is able and willing to give bonds in any amount for the faithful performance of his contract, offers to take the jail off the hands of the county, hire his own clerks, guards and employees, and to pay the county ten thousand dollars per annum for the privilege of running it. This will make a difference of twenty-five or thirty thousand dollars in the jail expenditures, and we recommend his offer to the Board of County Commissioners.

Departures.

In Port.

Natoma, City of Cairo, Same Hale.

MISCELLANEOUS.

Capt. J. P. Fitzgerald, Superintendent of the Atlantic and Mississippi Steamship Company, arrived yesterday by rail from St. Louis, to attend the sale of the City wharfboat to-day. He will remain in the city a day or two.

The towboat Mohawk passed up yesterday. She had a barge load of coal tar for this port.

The W. R. Arthur also passed up yesterday. She was light.

Nathan Hoffheimer, formerly of this city, but now of St. Louis, and who has been here on a short business visit, left for home yesterday. In him St. Louis has acquired an irreproachable citizen.

The Peosta makes her last trip to Mound City daily at 5 p.m. instead of 6 p.m., as erroneously stated by all our cotemporaries. Parties going fishing should bear this in mind.

The Natoma, Capt. Jim Lee, backs out to-day at 5 p.m. for Napoleon and all way points, carrying the Arkansas mail and connecting with the American for that stream at Napoleon. Fields, Whitehead and Lee are clerks.

The U. S. mail packet Commercial, Capt. Ashford, Charley Smithers, clerk, leaves to-morrow for all points on White river.

The City of Cairo, Capt. Crane, leaves at 5 p.m. to-day for Cairo and St. Louis. She is a No. 1 steamer and makes express time, connecting with trains for the North and East. Billy Blanker is the polite ladies' man of the Cairo.

The Sam J. Hale, Capt. Miller, leaves to-day promptly at 5 p.m. for Cairo, Louisville and Cincinnati, making all way landings, except at Portland bar—there she wont stop.

The fine steamer Luminary, Capt. Luker, with Jas. Lee Finney in the office, passes down to-day for Vicksburg and the Bends. She will leave the City Wharf-boat at 5 p.m., and will make all way landings.

A meeting of the Steamboatmen's Seymour Club will take place this evening in the hall over the engine house, corner of Second and Adams streets, at which every member is expected to be present. All river men or others in the city wishing to enroll their names are invited to be present.

We learn that Capt. John B. Davis will have a new packet at our landing within the next week, to take the place of the Commercial, which latter will go to the docks and be made better than new. What would the White river folks do without the "old reliable"?

Capt. Mark Cheek's new ferry-boat will be here by the 15th inst. The machinery of the Peosta will be transferred to the new boat, and the former will be placed at our wharf as a ferry dock. The new boat, it is said, will be a clipper, and will make the trip to Mound City in twenty minutes.

The City wharfboat will be sold to-day to the highest bidder for cash. The transfer of ownership will be made out immediately if Capt. Larry Harmstad don't buy her in.

Several river men are now daily seeking the shades of Hopefield, and there, under the spreading branches of some tall forest tree, are rehearsing speeches which they will in due time deliver at the club.

The Tempest reshipped at Cairo and turned back to Louisville. Louisville freight bound for White river now comes here by rail, and is reshipped on our White river line.

The Argonaut left Louisville on Saturday for New Orleans.

The Pink Varble is advertised to leave Louisville for this port to-day.

By a passenger who came up on the Natoma, we learn that the Mollie Hambleton was hard aground at Widow Ford's bar, on the St. Francis, Saturday morning. She will no doubt be in to leave at her regular hour to-morrow. Capt. Tom Bowman can work her off if it is possible to do so.

We learn from Mr. John Durff, of the post office, that Captain J. B. Davis has notified the Postmaster at this port that he has affected a contract with the department, giving the people in the bends as far as Vicksburg, two mails per week, instead of one, as heretofore. This will be good news to them. The mails will leave here on Mondays and Saturdays.

The New York left Cincinnati for this port on Saturday. One item of her freight is 1200 barrels pork.

Captain Jim Pepper's new boat has made a trial trip and works well.

They have had a slight rise in the upper Ohio. They have thirty inches in the channel at Pittsburg. A seven foot rise is reported in the Kanawha.

A legal gentleman canvassed an upper river steamboat lately, and found but one Grant voter on board. They fraternized, slept in the same stateroom, and in the morning the man with the inquiring mind woke up without a pocket-book.

Up to ten o'clock Wednesday the Tennessee river had risen ten feet, and was still swelling at the rate of half an inch per hour. Fears were entertained that the flue crops and the creek bottoms would be overflowed and badly damaged. The rains of Saturday and Sunday nights were among the heaviest ever known in that region.

The following boats are laid up at New Albany, nearly all of them undergoing thorough repairs: John Kilgour, P. W. Strader, Cora S., W. F. Curtiss, Dick Fulton, Simpson Horner, Alps, Comet, Swallow, Grand Lake, and Phil. Sheridan.

The Allegheny river packet Echo was sold at auction at Pittsburg on Thursday to Capt. Jas. Rees for $5900 cash.

The middle boiler of the Magnolia has been found. It was completely flattened out. The safe has also been found.

The W. F. Curtiss has been chartered at $1000 per month to run between Louisville and Cairo in connection with the John Kilgour, which will ply between Cairo and New Orleans.

The towboat I. L. Hyatt, recently sunk near Island No. 1, has been raised, repaired, and yesterday came into port with a tow of stone. She is commanded by Capt. James Lowden.

The Alabama and Tombigbee rivers have risen very rapidly and fears are entertained of an overflow.

The White Collar and the Quincy line have consolidated at St. Louis and will hereafter run under the management of the N. W. U. Packet company. The line will be continued to Keokuk as heretofore to do the local business, and an extension of the line will run to St. Paul, exclusively for passengers. The stockholders of the Quincy packet company retain their stock in the new line the same as in the old. The Superintendent and Secretary of the St. Louis and Quincy packet company will retain their positions and attend to the business of the new concern with the same promptness and courtesy that has heretofore characterized them.

Our Latest Improved NEW SCALE PIANO-FORTE.

GROVESTEEN & CO.,

499 Broadway, N. Y.,

THESE instruments, after the most flattering testimonials from the first Pianists in the country, who, at our solicitation, have tested them in the severest manner *possible*, have been pronounced THE FINEST SQUARE PIANO-FORTE MADE IN THE WORLD.

It has always been our policy, during the *thirty-six* years that we have manufactured Pianos, *twelve thousand* of which are now in use in the United States and Europe, to give the finest instrument at the lowest cost. Our superior facilities enable us to offer them from one to three hundred dollars less than any other First Class House.

The tone of these instruments are remarkable for their peculiar Sweetness and Great Brilliancy, never losing their quality when forced to their utmost capacity. The lower register retaining its positiveness, does not destroy the middle and upper registers by mingling with them in disagreeable confusion, the refined beauty of tone being equally delightful to the unpractised and to the most cultivated ear.

They are an entirely new style of Piano, finished in the most superb manner, *with four full* and overstrung *front* scale, heavily carved legs and Lyre Serpentine Base richly moulded, and each instrument is fully warranted for five years. se8 d&wly

MEMPHIS APPEAL.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE DAILY APPEAL,
MEMPHIS, August 1, 1868.

There was nothing of interest transpiring in the general or money markets to-day. A few planters were in town purchasing, and some orders were being filled to be taken out by our local packets, but the bulk of business was not large. Our banks report collections improving in bulk, showing larger purchases than last month, while all our merchants are coming up promptly and meeting their obligations. There is an occasional call for assistance, and our discount houses are doing something on good collaterals almost daily.

In exchange the market remains very quiet and rates steady with good demand from bankers for Eastern bills, which are taken at par to ¼c premium and sold at ¼@⅜c premium.

The market for bonds and stocks is entirely nominal, though the demand for some kinds is very good. Mississippi Central is probably more sought after than other securities. Orders are on the market for any amount at the following figures: Stock, 10@; 1st mortgage bonds, 60@; 2d do. 40@. Past due coupons of this road are in demand at 58@58½.

City bonds are firm, though no sales transpired during the day that we could learn of; 55@ was offered and refused for a small lot.

City scrip is scarce. Brokers buy at 73@75c, and will not sell at less than 80c.

Police scrip and county warrants are dull—the former at 70@ buying and the latter at 52@53½. Selling at 75@ for the former and 55@58@ for the latter.

Gold opened to-day in New York at 145¼@, declined to 144¾@ and closed at 145¼@. We heard of no sales of moment. Small amounts are taken at 143@144@. Selling at 144½@145@.

The New York stock exchange quotations at noon to-day were as follows: Coupons of '81, 15½; do '62, 14½; do '64, 11; do '65, 12½; new issue, 8½; do '67, 9; 10-40s, 8½; 7-30s, both series, 8½; old Tennessees, 61½; new 61½; Government bonds, heavy.

The amount of uncalled for interest, owed by the Government on United States bonds, amounts to over $65,000, which is payable in coin at the office of the Treasurer of the United States. Arrangements will be made to acquaint parties interested of the fact, in order to effect a discharge of this public obligation.

Measures have been taken in Chicago to ascertain the facts in relation to the Texas cattle disease, alleged to be raging at various places in the interior. It is believed by many that the reports are exaggerated, and that they are circulated by stock growers, in order to discourage the new competition in their business.

The Liverpool cotton market at the opening to-day was firm; Uplands, 9¼d; Orleans, 10¼d, and at 2 p.m. was nominally unchanged. Sales, 12,000 bales.

The New York market was firm at the opening with moderate demand at 30¼c for Middlings, and closed quiet but steady at same quotations. Sales, 900 bales; week's receipts, 39 bales; gross receipts, 5900 bales; week's sales, 10,060 bales; for export, 310; stock on hand, 46,000; week's receipts at all U. S. ports, 15,000 bales.

POPULAR WORKS ON FREEMASONRY

PUBLISHED BY THE

MASONIC PUBLISHING

—AND—

MANUFACTURING COMPANY

432 Broome Street, New York.

LITURGY OF THE ANCIENT AND Accepted Scottish Rite of Freemasonry, for the Southern Jurisdiction of the United States. By Albert Pike, 33d, Sov. Grand Commander. 8vo. Splendidly illustrated with Chromo-lithographic plates and numerous wood engravings. Part II, 4th to 14th degree, $6 50.

☞ It would perhaps seem unnecessary after giving the above title-page to say anything further in the way of recommendation. The name of the author should of itself be a sufficient guarantee of its worth. Ill. Bro. Pike, by his learning and contributions has done as much to elevate the standard of Masonic literature and extend a knowledge of its symbolism, ethics and history as any other living man. This book, in its particular department, may justly be considered a master-piece, embracing matter not only useful to the Masonic student of every grade, but to many of science in the highest literary field of the present age. Notwithstanding this book has been preceded by several of a similar character, yet to Bro. Pike alone is due the honor of first exploring this branch of Masonic literature and of opening to the admiration of the Craft its vast storehouse of knowledge and beauty. This work contains the degrees of the Ancient and Accepted Rite from the fourth to the fourteenth inclusive, is elegantly illustrated with chromolithograph engravings, showing all the jewels, costume, furniture, etc., belonging to each degree. No expense has been spared in getting it up, and it is without doubt the most elegant, as well as one of the most useful books, ever offered to the Fraternity.

Published and for sale by the Masonic Publishing and Manufacturing Company, 432 Broome street, New York, and Booksellers generally in the United States.

☞ Copies of the above for the Memphis Brethren are ready for delivery at the Editorial Rooms of the APPEAL, 14 Jefferson street, upstairs. jy 1w

ALBERT PIKE & CO.

FOR PRESIDENT,

HORATIO SEYMOUR,

OF NEW YORK.

FOR VICE-PRESIDENT,

FRANK P. BLAIR,

OF MISSOURI.

TO THE LAWYERS OF TENNESSEE.

Gentlemen:

In times like the present, when the the foes of liberty are in power; when freedom is being driven from our halls of legislation, and finds but a cold and feeble reception in the Courts of Justice; when citizen meets citizen on the street and anxiously inquires "what next?" when the safe-guards of liberty are being ruthlessly torn down; when no man feels safe in person or property; when the great charter of our liberties is openly derided, spit upon and trampled under the feet of revolutionary tyrants;—in a word, when the Government which cost our fathers so much blood and treasure, and which was our pride and boast and the wonder of the world, lies before us a shattered and broken wreck, and ruthless tyrants reveling in our Legislative halls whilst the Executive and judicial functionaries of the Government, both Federal and State, either join in the work of demolition or timidly shrink from the task of preserving the Government of our fathers, it becomes the duty of all classes to come to the rescue. This is no ordinary political struggle. It is a contest for political and social existence. With the success of the revolutionists next November closes the history of liberty on this continent. Its race will have been run. It will present to the gazing world its lifeless corpse, and nothing will remain to be done but to bury it out of sight and then submit our necks and the necks of our widows and our sons and daughters to the galling yoke of the usurper. It will then be seen and felt that Tom Moore gave utterance to a philosophic truth and not a poetic fancy when he exclaimed, in the bitterness of his heart, over the misfortunes of his beloved Island:

"O, Freedom! once thy flame hath fled,
It never lights again."

To you, gentlemen, I do not attribute more of personal insincerity or of true patriotic fervor than belongs to your fellow-men; but it is a source of just pride to the legal profession, that in all ages, from the earliest records of history to the present time, its members, as a body, have been the friends of liberty and the foes of tyrants. Laboring daily as you do in a profession that involves the investigation of the principles of government, you are necessarily brought to see things from a stand point inaccessible to other classes of the community, and can clearly discern danger to public freedom which other men do not see until the mischief is upon them. The great principles of political and social order, the rights of persons absolute and relative, the rights of property and its regulation by rules of law thoroughly sifted by search ing analysis, and illustrated by a long train of judicial decision having been with you the study of a lifetime, have unavoidably made you the depositories of the learning so closely and directly affecting the happiness and repose of society, and kept you by the mere force of habit more keenly alive to the inroads of revolution upon the laws and customs of society and the safe-guards of public liberty than any other class. These results of our social and political organization, affording you their increased facilities, certainly carry along with them corresponding duties and responsibilities. Hence, in all ages of civilization you have been the draftsmen of our laws and constitutions, and, to a great extent, the authors and framers of forms of government.

The lawyers of to-day are the legitimate successors of the Cokes and Holts, the Somers and Camdens, of the mother country; and of the Adams and Jeffersons, the Hamiltons, Madisons and Marshalls of the early Fathers, as well as of the great Websters, Clays, and Calhouns of the nearer past, and while you may justly boast of this renowned professional descent, its illustrious connections are not without its corresponding duties. The Constitutions, both State and Federal, of your country have gone down in blood, and the murderers still hold it under foot with sword in hand. Above you, beneath you, around you as far as the eye can reach or the voices of your suffering fellowmen can be heard, is one wide world of woe. The wreck of violated rights, of broken laws, the unburied bones of the slain, and the charred remains of once happy and lovely homes salute your eye. The cries of distressed millions, wandering like sheep without a shepherd, seeking for the tree of liberty planted by their fathers, and for the constitutional rights which have been lost in the storm salute your ears. Never, gentle men, until the tide of time,—never in the darkest hour of freedom's struggle in any country, in any age, has there been such a call upon the brain and nerve—upon the patriotic heroism of your profession to become the sworn champions of freedom's cause than now. Society exists in distinct classes, as the classes do of individuals. The voices of the individual members of society when united become potent. But when the people come forth in a cause by classes, and each class brings out its full strength woe be to the guilty wight who steps across their path. I appeal, then, to you, gentlemen of the bar, as a class looking to your illustrious professional ancestry, and to their clear, bold and heroic record, to come forth and band together to rescue the country from ruin. Without disturbing your respectable membership in the different clubs of the city, form one of your own and vindicate the justice of your claim to be regarded as the friends of liberty and the foes of tyrants. No matter whether you meet often or seldom, meet and organize and peal out to the country in notes not to be mistaken, your warning against the approach of anarchy and despotism.

The people feel that they are ruined, but they know not the hand that did it. They feel the blow, they reel and stagger under the loss of liberty, but they know not how or when it was done. They know that things are not as they used to be. They don't see the old faces in the halls of legislation or on the bench. Things are not done like they were, but they can't see the why and the wherefore. They don't know the changes that have been made in the organic and statute laws of the Federal and State governments. They feel that they are hurt, crushed and impoverished, broken in spirit and fortune; but they know not the agents or the instruments. Your profession has led you to watch these things. You know the breaches which have been made in the Constitution. You saw the insidious rascal as he laid the ax to the root of the tree of liberty. You saw and heard the blows. You saw its leaves wither and its fruit dry up and drop. You know the secret of the poor man's fruitless toil, and you know why his children cry for bread, and his wife droops in despair. You know why the bonds of society are loosened, and murder and robbery and rapine stalk abroad. You know it is because the people have been misled by heartless demagogues, who either did not know or did not revere the great charter of liberty, the Constitution of the country, and have gone outside of its limits to legislate and to judge and give judgment, and having no other guide but their own blind passions and selfish roguery. They have plundered the nation of its laws and constitutions, have stolen its property, corrupted public morals, thrown down the guards of liberty, and now stand, sword in hand, with their feet upon the necks of the people, who are ruined, and they know not how or by whom. Now, then, gentlemen, I call upon you to lift and move from the dust the Constitution of our fathers, *as they made it*. Read it and expound it to the people, as the Prophet, Ezra, did the law to the returning Israelites, that they may learn once more the old paths, and, walking therein, find peace. This is your work, and no class of the people but you can do it. Do this and save your country.

BY TELEGRAPH.

Noon Dispatches.

LOUISVILLE, August 3.—The *Journal's* Washington special says: "The condition of affairs in Tennessee has excited much attention here during the last few days. The President has been understood to have said that if United States troops are sent there, they will be under orders to keep the peace, and not to aid Brownlow in his war of extermination against the white people. The Republicans say they mean to carry the State for Grant, if it costs half a million of money and ten thousand troops. Gen. Thomas is in active correspondence with the War Department. He says the people are ripe for revolution."

A man-of-war is being fitted out at the Brooklyn navy yard to go on an excursion to the West Indies. Mr. Seward and, perhaps, the President, will be passengers. More land is said to be at the bottom of the trip. Some think it is Cuba, and others say that Seward has his eye on Jamaica, for the purpose of the colonization of the negroes there.

Burlingame expressed the belief while here that colonization is the only outlet for the black race.

The carpet-baggers will force a meeting of Congress in September.

Blair's Leavenworth speech gives satisfaction.

NEW YORK, August 3.—Mr. Queen, stakeholder for McCoole and Coburn, has notified both men that if arrangements for the fight are not concluded by Thursday next he will return the money. In the meantime, John C. Heenan has addressed the following note to the Western bruiser:

Mr. McCoole: Having understood that you consider yourself the champion of America, I am ready to fight you for any sum you may name inside of three months.

THE NEWS.

—Forty new freight cars are building at Minneapolis, to be completed in time to be used in moving the wheat crop of this fall.

—This season the rice crop will probably reach sixty thousand barrels, against forty-five thousand barrels in 1867.

—Wild horses are now found in great numbers on Liachian plains, in New South Wales, and have become a scourge. At some seasons they are dangerous to approach.

—According to the recently issued register of the United States navy, it appears that we have now in the navy two hundred and twenty vessels, of which fifty-two are iron-clad.

—There will be another concession of prices for dispatches over the Atlantic cable after the 1st of September. The rate will then be $12 50 in gold for ten words between any part of Great Britain, and New England and New York.

—The city councils of Baltimore have appropriated $50,000 to the relief of the sufferers in the city by the late flood, $150,000 toward repairing streets and bridges, and $20,000 for removing the rubbish.

—A firm in New Bedford is making three-wheeled wagons and carriages, which are much liked by those who have tried them. They are said to turn in less space and with less danger of upsetting than four-wheeled vehicles.

—Rev. J. D. King, of Fall River, Mass., whose house has twice been entered by thieves, publishes a card, informing the burglars that he never leaves anything in his house worth stealing, and advising them to desist from bootless raids upon it.

—The Springfield (Mass.) *Republican* of a recent date says: Col. Berdan, of sharp-shooter fame, was in town yesterday, superintending at the armory a trial of his new breech-loading, thirty thousand of which are now making at Colt's in Hartford, for the Russian government. The Colonel will sail for Europe next week.

—In Kalamazoo county, Mich., over 500,000 pounds of wool have been bought up this season, the highest price reported being forty-five cents. At Mount Clemens, Macomb county, about 115,000 pounds have been purchased, eighty-eight cents being the highest price. At Niles, in Berrien county, 61,000 pounds have been bought at prices ranging from thirty-three to thirty-eight cents.

—A large diamond found by a Griqua, near the Vaal river, in Africa, has been forwarded to the Colonial office at the Cape. It weighs fifteen and a half carats and is valued at about £400. Several others have been found in the neighborhood of the Vaal river.

—The German philosophy is beginning to reach upon the popular tastes. According to recent statistics, novels and other works of light literature are much less called for than formerly, while the demand for works upon science is largely increased.

—A gold vein has been discovered in the town of Clinton, N. Y. The vein is traceable on the surface for 3000 feet, and varies in width from six inches to one foot. The quartz is bluish, and a portion of it next the walls decomposed. It is well defined, and pitches at an angle of seventy-five degrees. An assay of samples of the quartz rock by competent metallurgists, shows that it contains $15.45 of gold to the ton, and about twenty per cent. of silver.

—Prussia has shown her determination to become a first-rate maritime power, by making an extraordinary appropriation of $7,152,374 for the year 1869, to be expended in the construction of fortifications at the seaports she has just obtained, and in manufacturing heavy artillery and armored vessels. The amount to be expended at Kiel alone, is stated to amount to $4,411,124, or $2,514,842 more than in 1866.

—A nurse has been arrested at Geneva, Switzerland, on a charge of poisoning successively eight persons whom she had had under her care. The only explanation given for the crime is a sort of homicidal monomania, as she does not appear to have derived any profit from the death of these persons.

—Some time since we published an account of a "suttee" in India. The Calcutta *Englishman* has the following as the final chapter of the story: "Some adverse criticism has been excited by the severity of a sentence in a recent 'suttee' case at Cawnpore. Fourteen men were transported for life, and thirty for ten years, and eleven others were to be imprisoned for five years."

—The mental condition of the Empress Carlotta has lately become so serious that double guards have been placed around the palace of Laecken, Brussels, to prevent her escape.

—From one of our German exchanges we copy a statement that a transparent metal has been discovered, the component parts of which are water, glass and copper: "It is of a deep orange hue, can be melted and cast, wrought under the hammer, and rolled. Files will not scratch it; it is translucent, and capable of being wrought into ornaments of rare beauty."

—The woods on the north shore of Lake Superior are reported to be rapidly burning. Fires are raging through the standing pine timber with intense rapidity. Millions of dollars' worth have already been destroyed, and millions more will be before the consuming element can exhaust itself.

The attention of tax payers is directed to the following provisions of "An act to amend the Revenue Laws of this State, passed March 13, 1868."

SEC. 17. *Be it further enacted*, That in order to secure the prompt collection of the revenue derived from taxes on real estate and personalties, that all such taxes shall be, and they are hereby declared due and payable on the 1st day of July of each and every year for which said taxes were assessed; and provided, the payment of said taxes is deferred and not made before the following first day of November of each and every year, a penalty of two per cent. in amount of taxes to each person for such non-payment shall be, and the same is hereby imposed, which shall be collected by the Tax Collector in addition to the regularly assessed taxes; if not paid before the first day of the following month of December, a penalty of five per cent. shall be, and the same is hereby imposed and shall be collected as aforesaid; if not paid before the first day of the following month of January, a penalty of ten per cent. shall be collected as aforesaid; if not paid before the property is advertised for sale, a penalty of twenty-five per cent shall be, and the same hereby imposed, which penalty shall attach and be collected whenever the taxes to which said penalty shall be paid.

SEC. 18. *Be it further enacted*, That it shall, in no case, be lawful for Tax Collectors to give a receipt for taxes to any individual who shall have incurred either of the penalties embraced in section 17, unless said penalty is paid with the taxes, together with such costs and fees as may have legitimately accrued on same; and sworn statements, showing the exact condition of the tax books in every county, shall be made by the Tax Collectors of said county on the first days of November, December and January of every year, and the same shall be filed with the County Court Clerk, and a copy of the same shall be forwarded to the Comptroller of the State.

SEC. 19 *Be it further enacted*, That in case any property is sold by the Tax Collector for the non-payment of taxes, costs, fees and penalty, shall, in the aggregate, be subjected to an additional penalty of fifty per cent., and whether such property is purchased by individuals, by the city, or by the State for the benefit of public instruction, it shall, at no time, be redeemed by the owner therefor, except upon the payment of the fifty per cent. penalty, together with the taxes, costs, fees and previous penalty attaching at the time of the advertisement of said property, and also the interests on the aggregate amount, for the time elapsing after sale.

SEC. 20. *Be it further enacted*, That in case property sold for taxes is not redeemed within one year from the time of sale, a further penalty of fifty per cent. shall be and the same hereby is imposed; which penalty shall attach to all previous penalties, taxes, costs, fees and interest that shall have accrued at the end of the year on the property sold; and it shall at no time thereafter be redeemed, whether sold to individuals, city or State, for the benefit of public instruction, except on full payment of all the penalties imposed, together with taxes, fees and costs, and the interest on the aggregate amount of taxes, fees, costs and penalties for such time as shall have elapsed from the date the last penalty was imposed.

SEC. 21. *Be it further enacted*, That the title to all the property disposed of at public sale for the non-payment of taxes, shall, if not redeemed before the expiration of two years from the date of sale, rest absolutely in the party or parties that purchased said property at public sale, or in their heirs or assigns: Provided, That said parties shall have paid promptly all taxes on the same.

SEC. 22. *Be it further enacted*, That real estate sold for taxes shall be redeemable at the office of the Clerk of the Circuit Court, to receive from the owner of such real estate, or his agent, the taxes, costs, charges and penalties imposed by this act, at any time after such sale has been made, within two years from the date of said sale, after the expiration of which time the Tax Collector, or his successor, shall execute deeds to all such real estate as has not been redeemed as aforesaid, to the purchaser, upon his application, as now provided by law.

SEC. 23. *Be it further enacted*, That it shall not be necessary, in order to carry a good and valid title to real estate sold for public taxes, that the Tax Collector should give the date and number of entry, of either, or date or number of grant, or either; or name of grantee, or number of range or section, or the name of the true owner of such real estate; but it shall only be necessary to give such description of real estate reported for non payment of public taxes as shall be necessary in order to identify the same with reasonable certainty.

SHAME! SHAME!

If the Chief of the Police lately paraded the unfortunate prisoners under his charge, with banners and devices, through the streets of this city, for the purpose of dishonoring both county and city, the attempt was an eminent success. Undoubtedly it is discreditable in the extreme, to each community, that we have no poor-house or house of refuge, with a farm attached, where the unfortunate victims of civilization and their own vices could be cared for, and made by honest industry to earn a support, be reclaimed, perhaps, by pitying kindness, at any rate be not treated like wild animals, and made to feel at every instant that they are the outcasts and outlaws of society. If the heartless parade of Saturday should lead to the establishment of such an institution, the lesson administered to the county authorities, though sharp would prove to have been salutary, and might in some measure be excused.

We understand that some of the unfortunate creatures thus dragged along our streets, were not so wholly lost and abandoned as not to shed tears. A sad and melancholy sight it was, we are assured, to those who, having the hearts of men in their bosoms, witnessed it. Two of the prisoners, we learn, were *white women*. It was a singular inhumanity to expose *these* to the public gaze, to whatever unimaginable depth of degradation they may have been sunk. It is always a cruelty and a shame to display to the public gaze the frailties and corruptions and moral diseases of humanity; for these are like the loathsome outward diseases which make the hospitals and lazarettos hideous and repulsive, and persuade us to doubt whether the father and mother of the race were made after the image of God; at the sight of the little Aztec monsters, exhibited for money, years ago, compelled *us* to doubt whether the belief that the soul of man is to live after this life, was not a delusion, which man's vanity only has caused him to entertain.

Low as a woman may sink, there is rarely utter darkness in her benighted soul. A little spark of light almost always lingers there. She is still capable of love, an almost savage love, perhaps, and fidelity. Once, each was a child, and knew a mother's love, and was innocent and happy; and even when vice and sin have utterly defiled and debased her, and in all the wide universe no one cares for her but her Father in Heaven, who still loves and pities her, it is a savage and a cruel thing to expose her to the gaze of unpitying eyes, to the jeers and scoffs of a mob, to a shame and a deeper degradation that may extinguish the little spark of light that still burned in some corner of her soul, and cause her utterly to hate a humanity that persecutes where it ought to pity, and punishes where it ought to reform.

An eloquent Divine has said, "The public eye may look unconcernedly on the miserable victim of vice; and that shattered wreck of a man may move the multitude to laughter or to scorn. But to the Christian, it is the form of sacred humanity that is before him; it is an erring fellow-being; a desolate, forlorn, forsaken soul; and his thoughts, enfolding the poor wretch, will be far deeper than those of indifference, ridicule or contempt."

And another, even more eloquent, has said, "A man will wonder what spirit they are endowed withal, that can basely libel at a man, even, that is fallen. If they had any nobility of soul, they would with him condole his disasters, and drop some tears in pity of his folly and wretchedness; and if they were merely human and not brutal, nature did grievous wrong to a human body, to curse it with a soul so cruel, as to strive to add to a wretchedness already intolerable."

Such a spectacle as this City witnessed on Saturday reminds one of Heinrich Heine's description of a scene which he once witnessed in a little hospital. "Where it was horrible to hear how the patients mockingly reproached each other with their disorders and infirmities: how one, who was wasted by consumption, jeered at another who was bloated by dropsy; how one laughed at another's cancer of the face; and this one, again, at his neighbor's locked-jaw or squint; until at last the delirious fever patient sprang out of his bed, and tore away the coverings from the wounded bodies of his companions; and nothing was to be seen but hideous misery and mutilation."

—Prussia has shown her determination to become a first-rate maritime power, by making an extraordinary appropriation of $7,152,374 for the year 1869, to be expended in the construction of fortifications at the seaports she has just obtained, and in manufacturing heavy artillery and armored vessels. The amount to be expended at Kiel alone, is stated to amount to $4,411,124, or $2,514,842 more than in 1866.

Night Dispatches.

ST. LOUIS.

ST. LOUIS, August 3.—A Denver dispatch says that 1000 men are at work on the Colorado Central railroad.

A telegram from Schuyler Colfax, states that he positively declines any public dinner invitations on his trip to the mountains.

Three gamblers were lynched at Sioux City, Iowa, last week, for cheating.

FOREIGN.

MANCHESTER, August 3.—An alarm of fire was given in a music hall Saturday night, when the audience was seized with a panic and rushed for the doors. The result was that twenty-three persons—principally women and children—were crushed to death. A large number had arms and legs broken, and were otherwise injured.

LONDON, Aug. 3.—The cable laid in 1866 ceased to work at 12:35 this afternoon. A test shows that the fault is at the New Foundland side. The cable has probably been damaged by an iceberg.

VERMONT.

RUTLAND, Aug. 3.—An atrocious murder was committed at Shrewsbury, Vt., last evening. A dispute has long existed between two families named Plumley and Balch, and white appraisers were engaged in settling up some damages caused by the horses of the latter, a quarrel broke out, in which indiscriminate firing took place. A young man not at all interested in the dispute, named Johnson Gilman, was killed by Horace R. Plumley, and the latter and John Edman were wounded. The five principals in the affair, viz: Yebra Plumley, Horace R Plumley, his son and the murderer, George Butterfly, his son-in-law, and two men named Aoram Owen and Napoleon Querter, employees of Balch, have been arrested and confined.

NEW YORK.

NEW YORK, August 3.—The *Herald's* Halifax special says that the Unionists hold out firmly for the Repeal, and the spirit of the public press is very bitter—even suggesting the mobbing of the Canadian ministers. Hon. Joseph has published a letter rebuking this spirit, and he is consequently denounced as a traitor.

The *Herald's* Montreal special says that private advices state that Dr. Supper will retire from the Cabinet, and Howe will be offered and accept a seat in the Dominion Cabinet.

Gen. Chas. G. Halpin ("Miles O'Reiley,") City Register, and editor of the *Citizen*, died this morning from an overdose of Chloroform administered to relieve neuralgic pains.

ALABAMA.

MONTGOMERY, Aug. 3.—In the Senate to-day the only bill of importance discussed was the Disability one, on which there was no definite action. In the House a large number of bills, of only local interest, were passed. The Common Court bill created an animated discussion on the proposition that only the original bill could be properly put to the House, and that the Clerk had no right to read from the printed copy, but the original could not be found, having been lost by the Committee to whom it was referred. This created great confusion. Motions were made, and appeals from the decision of the Chair followed in rapid succession, and amid much disorder the House adjourned until to-morrow. The passage of the bill is considered doubtful.

The heavy rains that have recently fallen have done immense damage, and the worms are appearing in all sections of the State. It is estimated that the cotton crop is out short one-half already.

NEW ORLEANS.

NEW ORLEANS, August 3.—A negro named Willis Rollins, who has been making Democratic speeches to the negroes of this city for the past week, has aroused the enmity of the Radicals, both black and white, and several attempts have been made to murder him. On Saturday night a crowd followed him for several squares, trying to drag him from a street car, and making his escape, he was arrested on the charge of inciting a riot, and afterwards released on bail. Yesterday another attack was made on him with a sling shot. This morning, on appearing before the Recorder, the original charge of inciting a riot was dropped, and the charge of carrying concealed weapons was substituted, but he was finally discharged by the Recorder, and on being released, his life was again threatened by a crowd of excited negroes; but he was safely escorted by his friends to the rooms of the Constitutional Club, on Canal street, in the neighborhood of which the excitement increased. Gov. Warmouth appeared and made a short but effective speech, telling the negroes that they should rather protect Rollins in the public expression of his opinions than to seek to deprive him of that right, and closed by advising the crowd to disperse and go home, which they did. The speech of the Governor is highly spoken of.

WASHINGTON.

WASHINGTON, August 3.—Mr. Murphy, superintendent of Indian Affairs, writes to the Indian Bureau from Fort Ellsworth, Kansas, on July 29th, informing the Commissioner of his arrival on the 28th ult., and that the next day he called on Gen. Sully, at Fort Harker, who informed him that he had, about ten days previous, met in council at Fort Larned the Kiowas, Comanches, Cheyennes and Arrapahoes, and that the Cheyennes were cross and sullen because they had not received their supply of arms and ammunition, from the Government, while the Kiowas and Comanches were sullen and impudent because of the scarcity of provisions among them. Gen. Sully had collected from the army of the West all the effective men in the neighborhood of Fort Larned and posted them in position, which had a good effect on the refractory Indians, and they had stated their willingness to await the action of their father in sending them provisions.

The reason why the Kiowas have not been supplied with arms and ammunition, is because of their recent violation of the treaty stipulations, they having made war on the Kaws, who are friendly to the whites, besides having invaded the Government reservations for warlike purposes. About 1200 lodges consisting of about 6000 Indians were present at the Council held by Gen. Sully, and many of them were still in the neighborhood of Fort Larned, but at the date of Superintendent Murphy's report, everything was quiet, although some of the Indians had been stealing whenever they could get an opportunity. The reported killing of a Lieutenant and five men some days ago, is denied by him, who states that while the Indians are now quiet, that unless they are aided by the Government, they may resort to extensive stealing rather than starve, which may lead to other serious difficulties this fall, unless provision is made to keep them from suffering for want of food. The Department feels assured that by means of the provisions made by Gen. Sherman all difficulties will be averted.

Two hundred and ninety-one patents have been issued from the Patent Office for the week ending to-morrow. Three hundred and eighty five applications have been made and seventy-two caviats entered.

In view of the changes taking place among the employees of the Treasury Department in Washington, Secretary McCulloch has directed the appointment of a clerk to receive the applications for office, either from men or women, and to return those already received to the respective parties who presented them.

A dispatch from Richmond states that Judge Meredith, of the Circuit Court, has decided in the case of the Exchange and Farmers' Bank against certain parties for recovering in current funds debts contracted before the war, that the banks are compelled to take their own issue in discharge of the obligations The case will be brought to the Court of Appeals.

—The Galveston *Dispatch* of the 29th ult. says: The first bale of cotton grown in 1868 was yesterday received at Houston from M. J. Duke, Grimes county. It weighed four hundred and eight pounds, classed good middling, and was sold to T. W. House.

The National Banks of New York City.

By the last abstract of the quarterly reports of the National Banks of New York City, it will be seen that on a capital stock of $74,809,700, these banks have deposits amounting to $217,066,187, of about three times their capital, and that out of these surplus deposits they have loaned $177,271,238, or more than twice the amount of their capital. These loans and discounts, represented by notes and checks, are in effect an inflation of our currency to the amount of upwards of one hundred millions of dollars, or a third as much as the entire bank note currency issued under the National Banking system for the whole country. And whereas the bank note currency issued under the National Banking system is secured by deposits of Government bonds, and bears a definite ratio to the capital of the banks, this inflation through "deposits and loans," is secured by nothing whatever, and experience proves that, at the first sign of panic, the banks will contract this form of the currency with an effect which works wide-spread disaster among the business community. Would it not be well for our legislators, who are so solicitous to regulate the safety and amount of our bank note currency and to prevent its inflation, to bear in mind that the inflation of the currency that is wrought through the loans of the surplus deposits of our banks, is greater than the whole volume of our bank note currency, is unsecured, and that its contraction brings most serious loss and suffering on the public.—*New York Tribune.*

BUCKEYE SALVE

—FOR THE—

CURE OF EVERY FORM

HEMORRHOIDS OR PILES

WHETHER OF LONG STANDING OR RECENT ORIGIN, internal or external, whether attended with Prolapsus, Hemorrhage or obstruction, and all by

External Application,

No internal adjuvants being required in any case, only to regulate the bowels, if constipated, or in Diarrhœa and Dysentery.

The PILES, while astonishingly prevalent in their various forms amongst all classes of both sexes, are, at the same time, the most distressing, frequently dangerous, and hitherto most difficult of cure.

Persons who suffer any length of time with the Piles generally try everything they can learn of purporting to cure the disease, yet realize no permanent advantage therefrom. They have been told professionally perhaps there was "no permanent cure for Piles," and consequently have despaired of any future cessation from pain and suffering.

To all such a SPECIFIC is offered for their relief. The

BUCKEYE SALVE

Is a strictly scientific combination of well known remedial agents, and the proprietors have no hesitation in saying the BUCKEYE SALVE is the

ONLY INFALLIBLE SPECIFIC

Ever discovered for that disease, and which cures by outward application only, and that in time to come, as in the past, it will stand the test of trial without a failure, to perform all the proprietor's claim for it, if the directions are attended to.

A large number of gentlemen throughout the country of high character and influence have voluntarily attested to its efficacy in their own cases, not from hearsay, and whose certificates may be seen by reference to the publications.

The proprietors will forward to any address one bottle, postpaid, on receipt of the retail price, $1 00 per bottle.
